LET’S MEET

THERE ARE TWO ROUNDS

1st ROUND: YOU AGREED TO MEET, WE SCHEDULE

When registering for Game Connection, each attending company has a dedicated online profile where it can post projects, products, information on its expertise, specific needs, and targets for meetings. Thanks to the matchmaking system Let’s Meet, all participants can browse through companies, people or projects listed and prepare for their meetings.

User manual available here.

LET’S MEET

Basically all you need to do is:
• Select the contacts you wish to meet
• Send requests, confirm or decline the requests you receive.
• Make sure you lock your time slots when not available. For example: lock time slots when you are attending a session— that will prevent the system from allocating a meeting on that specific time.

Do not worry about date, time and location, the application will compile all accepted meetings and create a perfectly matching schedule, automatically.

2nd ROUND: OPTIMIZATION OF YOUR SCHEDULE - BEGINNING OF OCTOBER
Let’s Meet will shut down to arrange all your confirmed meetings. This is one of the great features of our matchmaking system: you don’t have to worry about your schedule, we will take care of that! Let’s Meet collects all registrants’ availability and arranges the confirmed meetings at time slots that are available for both you and the company you will meet.

After that day, you will be able to fill in the time slots left with more meeting requests. The application will assist you in optimizing your schedule by listing down companies whose spare slots match with yours.
